For Freight, apply to  
SIMPSON & CO.  
Hongkong, July 8, 1890.

SPAIN.

MADRID, July 9th, 1890.

The Sessions of the Chambers have been suspended. It is probable, that the Chambers will be dissolved in December.

It is believed that the new elections will take place in February.

MADRID, July 11th, 1890.

The cholera is still of a mild type.

The mail steamers have stopped running from Malaga and Valencia.

The recent trials of the *Perat* were successful.

LOCAL AND GENERAL.

1.25 STANLEY's company gave a second performance of 'East Lynne' at the Theatre Royal yesterday evening. There was a fairly good house. To-night the 'Octoroon' will be played.

DR. HENDERSON writes to-day:—The following telegram was issued at 4 p.m. yesterday:—  
"Typhoon near Shantung." It follows by heavy rains in southern China. The barometer continues rising and the weather is cooler than before the typhoon.

**DIVINE SERVICE FOR SEAMEN.**—On Sunday morning, between 9 and 10.30 o'clock, the steam launch carrying the Bethel flag will call alongside any vessel hoisting cod pennant C, to convey men ashore to 1 a.m. service at St. Peter's Seamen's Church, returning about 12.30.

The 14th July was celebrated with great  
revels in Tonkin. At Hanoi the statue of  
Paul Bert was inaugurated with great cere-  
mony. The Governor General, the King-  
duc (Annamese Viceroy) and several other

lowski, Consul for France at Yokohama, and Madame Klobukowski, daughter of Paul Beri, were present.

Advises from Newchwang report that some much needed rain has fallen, which will probably insure a fair average crop of beans.

river was said to have risen two feet. — *N. C. Daily News.*

The Companies Memorandum of Association Bill—a measure which may be of some interest to the Hongkong Land Investment Company—was discussed by the General Standing Committee of the House of Lords on the 10th June. After a discussion in

ughten, and Thring took part; it was agreed by 18 votes to 15, on the motion of Lord Balfour, who represents the Board of Trade, that when any members of a company dissent from the decision to alter the memorandum of association the court may order them to be paid off. A new clause adopted at the instance of Lord Macmillan provides that the

of a company if it appears that the alteration is required to enable the company (a) to carry on business more economically or more efficiently, (b) to attain its main purpose by new or improved means, (c) to enlarge or change the local area of its operations, (d) to carry on some business which may conveniently or advantageously be combined with the existing business.

WEEK DAYS.  
8 a.m. to 10 a.m. every quarter of an hour.

Hongkong, Saturday Noon, 19th July, 1890.

their port-er to continue the interminable process.  
 THE FUTURE.  
 The world is all larg- and it has, and for ages will continue to have, ample room for all the additional millions which its existing millions can produce. The world- was never so much in need of the Chinese as to-day, and never, on the other hand, were the Chinese more in need of the world. But if China is to hold its own, much more it is to advance as other nations have advanced, and do advance, it must be done under the head of new forces. Confucianism has been a mighty power to build up, and to conserve. But Confucianism with its great merits has committed many a 'Deadly Sin,' and of those sins it must commit more if it is to advance as other nations, in its developing force is a force which is spent. Sooner or later it must give way to something stronger, wiser, and better.  
 STARTLING EVENT IN A VILLAGE.  
 To the Editor of Saturday Night, Birmingham.  
 I recently came into possession of certain letters, remarkably a nature, that I am sure you will be glad to assist in making them public. The following letters were shown to me, and I at once begged permission to copy them for the Press. They come from a highly responsible source, and may be received without question.  
 DEAR SIR,--I am GEORGE JAMES GOSTRICK, L.D.S., R.O.S.I., Ph.C.I., Licentiate in Pharmacy and Dental Surgery.  
 Stowmarket, July 18, 1889.  
 To Mr Wmrr,  
 The enclosed remarkable cure should, I think, be printed and circulated in Suffolk. The cure was entirely voluntary, and is genuine in fact and detail. G. J. G.  
 'To the Proprietors of Mother Seigel's Syrup.'  
 'GENTLEMEN--The following remarkable cure was related to me by the husband, Mary Ann Spink, a widow of 60 years, afflicted with rheumatism, and other ailments, about whom she was attacked (he is now fifty), she was compelled, in consequence, to walk with two sticks, and even then with difficulty and pain. About a year and a half ago she was advised to try Mother Seigel's Syrup, and after taking three bottles and two boxes of Seigel's Operating Pills, the use of her limbs was tolerably restored, she was able to walk three miles to Stowmarket with ease, frequently doing the distance in three-quarters of an hour. Any sufferer who doubts this story can fully ascertain its truthfulness by paying a visit to the village and enquiring of the villagers, who will certify to the facts.'  
 Appended is the husband's signature to the statement.  
 (R. Spink.)  
 'G. J. GOSTRICK,  
 Ipswich Street,  
 Stowmarket.'  
 This is certainly a very valuable case, and the best cure of rheumatism, and other powerful remedy, must move the sympathy of all hearts in a common pleasure. This poor woman had been a cripple for twenty of her best years; years in which she should have had such comfort and enjoyment as life has to give. But, on the contrary, she was a miserable being, to have able to source of care to her friends. Now, at an age when the rest of us are growing feeble, she, in a manner, renews her youth and almost begins a new existence. What a blessing and what a wonder it is! No one who knows her, or who reads her story, can fail to think that the cure was due to the power of bringing about a cure that reminds us--we speak it reverently--of the age of miracles.  
 It should be explained that this most remarkable cure is due to the fact that the blood was washed of the acid and indigestion, constipation, and dyspepsia, and the poison from the partially digested food to enter the circulation, and the blood deposits it in the joints and muscles. This is rheumatism. Seigel's Syrup corrects the indigestion, and stops the further formation of acid in the system. It then removes from the system the poison already there. It is not a cure-all. It does its wonderful work entirely by its mysterious action upon the digestive organs. But when we remember that nine-tenths of our ailments arise in those organs, we can understand the power of Seigel's Syrup. It cures diseases that appear to be so different in their nature. In other words rheumatism and neuralgia are but symptoms of indigestion, constipation, and dyspepsia.  
 Intimations
